PROFILE

I am a very ambitious and driven person. I constantly strive for improvement and betterment. After completing my international relations degree and working for ~2 years in related fields, I realized I wanted to pursue an education in the computer sciences. I have experience in working in multi-cultural environments and team settings. I am an open-minded person and have strong communicational skills. I am set to graduate in June of 2024 and hope to find employment in either ERP consultancy or data analysis.

WORK EXPERIENCE

Foreign Trade Operations Specialist

FCA Turkey Tofas
2020-2021

- Organized import/export operations for spare parts from and to Italy and France.
- Created a performance evaluation system to determine efficiency and calculate most cost effective transportation methods and logistics firms.
- Tracked inventory of empty cases used during import and was tasked with allocating these cases for export processes'.
